

Agreement for Final Screening and Certification
Training Program of Leaders for Integrated Medical System for Fruitful Healthy-Longevity Society

19 July, 2018

Training Program of Leaders for Integrated Medical System(LIMS)

(Purpose)

1. This agreement is set based on the agreement as defined in Article 8 of the Final Screening Committee of Training Program of Leaders for Integrated Medical System for Fruitful Healthy-Longevity Society (hereinafter called "LIMS Final Screening Committee").

(Commencement)

2. The final screening and certification for students will be carried out as follows: Those who wish to apply for final screening and certification should submit the LIMS Program Thesis together with the "Application for Final Screening and Certification".

(Committee Selection)

3. The LIMS Final Screening Committee will select one Professor of the student's affiliated Graduate School and two unaffiliated professors from other fields of the LIMS program (refer to appendix table of the LIMS final screening committee) as the Final Screening Committee. However, depending on the contents of the thesis, the selection of one LIMS program professor will be allowed as an unaffiliated field professor.

(Criteria)

4. Students of the LIMS program should fulfill the following diploma policy requirements:
 - (a) Gained sufficient medical knowledge and an ability to apply this knowledge to their specialized field of research.
 - (b) Gained English proficiency as well as high debating skills in order to be able to play an active part in international research centers, companies and public organizations.
 - (c) Ability to understand and consider current and future problems of an unprecedented globally aging society.
 - (d) Ability to use their skills and knowledge to solve problems, collaborating with people and organizations from different backgrounds.
 - (e) Ability to propose and implement new concepts and ideas that will help the aged live a fruitful life.
 - (f) High potential to become strong leaders.

(Confirmation)

5. The Final Screening Committee will examine the following criteria:
 - (1) Completion of all compulsory subjects and credit requirements.
 - (2) English debating skills based on an oral examination together with grades achieved by the student in the English Debate class.
 - (3) Their thesis reflects achievements the students have made through the LIMS program.
 - (4) The contents of their oral examination at the public thesis defence.

(Report)

6. The Final Screening Committee will report the result of their evaluation to the LIMS Final Screening Committee.

(Roles of the Committee)

7. LIMS Final Screening Committee will receive the above results, and the final screening will be based on the status of the student's thesis at their graduate school as well as the completion of the Training Program of Leaders for Integrated Medical System for Fruitful Healthy-Longevity Society. The results will be reported at the LIMS program professors meeting.
